Education

HSEB + 2 (SCIENCE)

Trinity International College

2016 - 2018

BACHELORS IN COMPUTER APPLICATION

Orchid International College

2019 - Present

My Works

Travel Management System

Travel Management System I have created a travel management system using Django as my framework for my semester project

[-GitHub - RoshanPoudel01/Hotel-and-Flight](#)

Modern Site

Developed a visually appealing webpage using React and Tailwind CSS, showcasing my proficiency in front-end web development and design.

[-GitHub - RoshanPoudel01/gpt3](#)

Trip administration system

Designed and implemented a comprehensive Trip Administration System, leveraging React for the front-end, Node.js for the back-end with RESTful APIs, and MongoDB for data storage. This project underscores my expertise in full-stack development and database management.
